SKILLS

Frontend: Next.js, React, Angular, Ionic, shadCN, Tailwind, SCSS · **Languages:** TypeScript, JavaScript, Python, HTML, CSS
Backend: Node.js, Express, NestJS, PostgreSQL, MongoDB, Supabase · **Cloud:** Firebase, AWS, GCP, Cloudflare

RELEVANT RECENT EXPERIENCE

Front End Lead · AeraTech [Emerge Tech Lab] · *London, United Kingdom* ***Nov 2024 - Jun 2025***
- Architected a B2B cross-border payments prototype in React and Tailwind CSS, taking the product from concept to alpha.
- Built Node.js, Express, and MongoDB services plus Python microservices for group-treasury reporting.
- Integrated Mastercard Digital Asset Solutions for institutional liquidity and internal blockchain transfers.

Software Engineer (Frontend) · Connectly.ai · *San Francisco, CA, United States* ***Jun 2024 - Oct 2024***
- Shipped React and TypeScript frontend features for an AI conversational-commerce platform across WhatsApp, Facebook Messenger, and Discord.
- Optimized the customer inbox with list virtualization and a Redux-to-Jotai migration; developed Go APIs with PostgreSQL.

Front End Lead · Tapistrii [Emerge Tech Lab] · *London, United Kingdom* ***May 2022 - May 2024***
- Led the Angular-to-React/Next.js migration of a Web3 social network for on-chain assets and NFTs.
- Built multi-wallet authentication with Wagmi, Ethers, and WalletConnect; delivered NestJS APIs and ArangoDB search.
- Set frontend standards, performance budgets, and tests for a distributed engineering team.

Senior Director of Technology · East Coast Digital Marketing · *Orlando, FL, United States* ***Jun 2022 - Feb 2023***
- Directed web engineering, UI/UX, and digital marketing across concurrent client programs; hired and reviewed React, Angular, and Node.js work.
- Delivered custom web solutions for healthcare, food service, and non-profit clients using React, Angular, Node.js, and WordPress.

CTO; Full Stack Engineer; Frontend Developer · Bold Tech LLC · *Winter Park, FL, United States* ***Dec 2020 - Jun 2022***
CTO Aug 2021 - Jun 2022; Full Stack Engineer Mar 2021 - Aug 2021; Frontend Developer Dec 2020 - Mar 2021
- Directed engineering through full SDLC: code reviews and CI/CD on AWS, Heroku, and Firebase.
- Shipped Ionic and Angular apps, including SnakeSnap and Vesta, from Figma to iOS and Android stores; integrated Stripe and store payments.

SELECT PROJECTS

Qaari.net (qaari.net) ***2026 - Present***
Tech/Tools: React, Tailwind, shadCN, Node.js, Supabase, Firebase, Cloudflare
- Directory of verified Quran teachers: profile signup, admin review dashboard, public browse/contact, and shareable @handle links.

initialize-agentic-memory (github.com/baberarjumand/agentic_markdown_memory_agent-skill) ***Sep 2026 - Present***
Tech/Tools: Markdown, Node.js, Cursor Agent Skills
- Open-source Agent Skills package (init / audit / reflect) that sets up on-demand markdown memory for coding agents.

tech-resume-generator (github.com/baberarjumand/technical-resume-generator_agent-skill) ***Sep 2026***
Tech/Tools: TypeScript, Node.js, pdf-lib, Cursor Agent Skills
- Open-source Agent Skill that turns career files into one-page ATS-safe tech resumes (JSON + PDF).

EDUCATION

BEng (Hons) Electronic and Computer Engineering ***2013***
University of Nottingham Malaysia
